The Industrial Association is fortunate to have **Dorothy Rothrock**, President of the California Manufacturers & Technology Association (CMTA) as our March Forum Speaker.

Some Topics Of Discussion Will Be: The importance of manufacturing investment and job creation, and how well designed laws and regulations can promote environmental protection, public health and economic prosperity.

Dorothy has been recently named the new President of CMTA, the only statewide organization solely dedicated to advocating on behalf of the state's manufacturing and technology companies. CMTA lobbyists work on issues of importance to California manufacturers, including energy, civil justice, workers compensation, labor, tax, environmental quality and education.
